Other Comments						
<ul style="list-style-type: none"> - Due to the use of all-natural ingredients, there could be slight differences in the color and taste of the batches. These do not affect the product quality. - Occasionally, the product may spoil in shipping due to extreme temperatures and other conditions beyond our control. An offensive odor upon opening is evidence of spoilage. In such a case, do not consume the product but return it to the point of purchase for a free replacement.
